

Working With

CONTRACTORS

Contractors are small businesses, please respect their time. Every site visit costs them time and money. Don't expect multiple visits!

If you're not going to work with them, let them know! They need to know whether or not to keep you on their schedule.

If your project timeline is not immediate, you may be asked to sign an agreement letting your contractor know when you expect to start work AND that you agree to work with them.

Don't expect your contractor to start your project immediately.

There is generally a two week turnaround.
