

An aerial photograph of New Orleans, Louisiana, showing the city's layout along the Mississippi River. The river is a prominent feature, winding through the city and into the Gulf of Mexico. The city's grid-like street pattern is visible, along with various green spaces and industrial areas. The text is overlaid on the top left portion of the image.

The Water Runoff

*A New Orleans City Council
candidate debate*

The Broadside
600 North Broad Street
New Orleans, LA 70119

Tuesday, November 30, 2021
5:30 – 7:30 PM

The Debate

The Water Collaborative, Urban Conservancy and Coalition to Restore Coastal Louisiana welcome you to the Water Runoff: A City Council candidate debate. Water impacts every aspect of our lives in New Orleans. Whether you're focused on safety, criminal justice, education, food justice, or any other issue, water is at the center of it.

We will be discussing topics including equitable Sewerage & Water Board programs; green infrastructure related to stormwater drainage and flooding; and coastal resilience and hurricane protection.

All eight runoff candidates have been invited to attend, as have candidates who won their races outright earlier this month.

HOSTED BY

urbanconservancy

The Urban Conservancy is an organization leading and collaborating to strengthen our urban environment and local economy through equitable practices, policies and programs.

THE WATER COLLABORATIVE
LIVE · THRIVE · LOVE · WATER

The Water Collaborative seeks to build a diverse network for all impacted by flood risk by focusing on equitable practices to sustainably live and thrive with water.

CRCL's mission is to drive bold, science-based action to sustain a dynamic coastal Louisiana through engagement and advocacy.
